Introduction

Introduction	
Why is health insurance important?	6
How do I get health insurance?	6
What are the different types of health insurance?	7
How do I choose a health insurance plan?	10
What are the benefits of health insurance?	11
How do I pay for health insurance?	13
What are the requirements for health insurance?	14
What are the consequences of not having health insurance?	16

All students, regardless of their status, are required to have health care insurance.

Students who do not have health insurance must purchase a plan through the University of Toronto's Health Office. Students who already have health insurance must provide proof of coverage to the Health Office. The Health Office will review the proof and determine if the student is eligible for an exemption. Exemption requests must be submitted by the deadline and must meet all requirements, as defined by French Authorities and AUP.

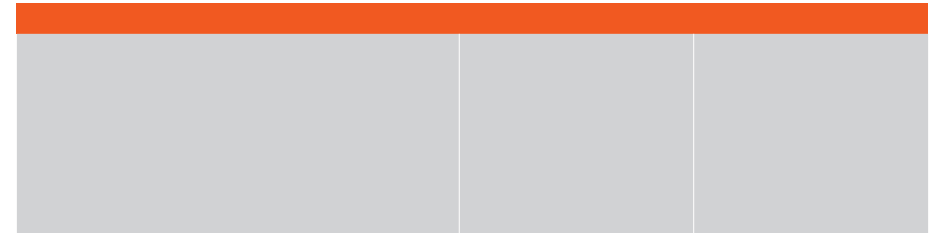

Students who already have health insurance and wish to request an exemption MUST inform the Health Office. Exemption request must meet all requirements, as defined by French Authorities and AUP.

1 How do I enroll in the AUP plan?

OPTING OUT

Students qualified for exemption must make an official request and show proof of acceptable alternative coverage to the Health Plan Coordinator prior to registration. The final deadline for exemptions is the first day of class each semester. Paperwork turned in after this date (regardless of the validity of the claim), incomplete exemption forms, or inadequate private coverage will not be accepted, and students will be charged the full price for health insurance. No exception will be made.

2 How long does coverage last?

New students are covered from August 27th through December 31st (Fall Semester) and January 1st through August 26th (Spring Semester). For psychological services, the semester dates are as follows: January 1st until June 30th (Spring Semester), September 1st until December 31st (Fall Semester).

4 Consulting a doctor or medical specialist

تعمیراتی اور طبی مشورہ کے لیے طبی ماہرین سے مشورہ کرنا ضروری ہے۔

- ▶ **طیباتی مشورہ** (General Consultation) کے لیے تقریباً 25-70 یورو (T) کی رقم لگانی پڑتی ہے۔ اس کے علاوہ، طبی ماہرین سے مشورہ کرنے کے لیے 180 منٹ کی مدت درکار ہے۔
- ▶ **طیباتی مشورہ** (General Consultation) کے لیے تقریباً 23-120 یورو (T) کی رقم لگانی پڑتی ہے۔ اس کے علاوہ، طبی ماہرین سے مشورہ کرنے کے لیے 180 منٹ کی مدت درکار ہے۔
- ▶ **طیباتی مشورہ** (General Consultation) کے لیے تقریباً 25-70 یورو (T) کی رقم لگانی پڑتی ہے۔ اس کے علاوہ، طبی ماہرین سے مشورہ کرنے کے لیے 180 منٹ کی مدت درکار ہے۔

8 Accidents, Emergencies & hospitalisations

Some procedures may not be covered, in particular cosmetic surgery, elective surgery, orthodontic care and treatment not recognized by the French Social Security System. If in doubt, do not hesitate to contact AUP Health Office or MSH International (basically services that are not medically necessary will not be reimbursed).

Some procedure may not be covered, in particular cosmetic surgery, elective surgery, orthodontic care and treatment not recognized by the French Social Security System. If in doubt, do not hesitate to contact AUP Health Office or MSH International (basically services that are not medically necessary will not be reimbursed).

- treatment for psychiatric, alcohol, and drug abuse disorders when costs exceed 600 €
- dental treatment, surgery, and crowns when costs exceed 600 € childbirth, repetitive and serial medical procedures (five or more)
- The telephone and fax numbers of MSH International are on the back of your MSH International insurance card.
- Failure to obtain a pre-certification agreement from MSH International may result in a refusal of a claim or reduction in reimbursement up to 50% of total reimbursement by MSH International
- Contact the AUP Health Office for assistance.

The Pompidou Hospital 15

So be aware that if you choose to go to the American Hospital or any other private hospital in Paris that you will not be fully reimbursed.
